

REQUEST FOR LEGISLATIVE APPROPRIATIONS

For Fiscal Years 2012 and 2013

Submitted to the
Governor's Office of Budget and Planning
and the Legislative Budget Board

by

Texas A&M International University

Revised October 18, 2010

CERTIFICATE

Texas A&M International University

Agency Name _____

This is to certify that the information contained in the agency Legislative Appropriations Request filed with the Legislative Budget Board (LBB) and the Governor's Office of Budget, Planning and Policy (GOBPP) is accurate to the best of my knowledge and that the electronic submission to the LBB via the Automated Budget and Evaluation System of Texas (ABEST) and the bound paper copies are identical.

Additionally, should it become likely at any time that unexpended balances will accrue for any account, the LBB and the GOBPP will be notified in writing in accordance with Article IX, Section 7.01 (2010-11 GAA).

Agency name: **Texas A&M International University**

The South Texas Border Region:

Laredo continues to be one of the fastest growing cities in the State of Texas and in the nation. Laredo as a port city ranks number sixth in the nation and is the largest in-land port. Laredo's growth is generated by international business, banking, and manufacturing, which when coupled with a demographic explosion in the area, will have a major economic impact on this area.

Reflecting the dynamism of the region in which we are located, the University also continues to grow rapidly. Between 2000 and 2009, enrollment increased by 111%. The Texas Higher Education Coordinating Board's program of "Closing the Gaps" by 2015 will be accomplished at regional institutions such as Texas A&M International University; however, funding is critical.

The Laredo region continues to benefit from an exceptionally young population. Approximately 26% of the population of Laredo is now enrolled in our two districts, grades K-12. Because we serve a young population in a rapidly growing city, the University will continue to grow. If "Closing the Gaps" is to happen, it will be accomplished in cities such as Laredo.

Student Success:

Texas A&M International University cultivates an environment of respect, integrity, service, and excellence. An aggressive outreach initiative takes to area high schools the crucial strategies for enrolling in university life. An array of programs targeting academic success and personal growth empower our students to develop fully their talents and pursue their interests. The Student Success Program brings together coordinated efforts of peer mentors, tutors, academic and financial advisors, counselors. Enrollment at Texas A&M International University has grown 111% since 2000, averaging approximately 10% per year. The retention rate of our students hovers between 65 and 75%; the six-year graduation rate is 45%. And we serve a population overwhelmingly Hispanic, young men and women the first in their families to attend college.

Community College Relationships:

Texas A&M International University partners with Laredo Community College (LCC) by staffing an outreach office at the Community College campus to provide one-stop shop services to LCC students wishing to transfer. The services offered include admissions, placement, financial aid and registration assistance. The University offers cross enrollment with LCC and has entered into an articulation agreement with 2+2 degree plans to ensure students enroll only in those courses necessary for graduation.

In addition, the University conducts three transfer fairs per academic year at LCC to assist students with a seamless transition to the University. For those students who do not attend the fairs, LCC shares its student enrollment lists allowing the University to pursue its aggressive outreach.

We believe a solid partnership advances the educational goals of the University, the Community College, and most importantly, the student.

Veterans' Affairs:

Texas A&M International University is committed to being military friendly by assisting all veterans with the transition to University life. Upon admission to the University, veterans have a one-on-one meeting with the veteran affairs coordinator to review specific degree plan requirements and the services offered by the University.

ADMINISTRATOR'S STATEMENT
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Agency code: **761** Agency name: **Texas A&M International University**

Thereafter, veterans are assisted each semester with the educational benefit certification process to ensure the timely awarding of their veteran benefits and are also advised of important upcoming events and deadlines.

The veteran affairs coordinator also works with Laredo Community College and other institutions of higher education to assist veterans as they transfer between institutions to ensure accurate and timely benefit awards.

High priority requests of the Texas A&M University System and all of higher education:

Base Funding – Our highest priority is funding the basic, on-going operations of our institutions and agencies. Given current economic projections, we request that the Legislature preserve our institutions’ and agencies’ base funding as much as possible and then put any new funds into the formulas to fund the additional students enrolled since the last base period and to fund the facilities costs of our institutions and agencies. We request that you maintain the current formula methodology for the general academic institutions in order to provide stability and equity for all institutions during uncertain economic times.

Incentive Funding – We support increased accountability and performance through incentive/performance funding; however, base funding through the current formulas needs to be funded first. The metrics used for any incentive funding methodology should show evidence of furthering state goals: for example, the current incentive funding methodology allocates funding based on numbers and rates of graduations, thus aligning with the state goal of producing more graduates.

Higher Education Group Health Insurance – We request funding to cover increases in health care costs and enrollments and to maintain at least the current proportional funding ratio for The A&M System Insurance Plan to the ERS group insurance plan: 95 percent of the rate provided for state employees in the ERS plan.

Student Financial Aid – Support for student financial aid is important. However, as important as financial aid is for students and their families, it is a method of paying for tuition and fees and does not increase much needed funding for the universities.

Five Percent Reduction for 2010-2011 Biennium – The A&M System institutions and agencies resolved to manage the 5% reduction so as to minimize its adverse effect on base programs: students, research and public service; and they have done so. However, if the Legislature is able to restore any of these funds in the next biennium, the commitment of our institutions and agencies is to put the funds into those programs.

Further Budget Reductions – If further reductions in funding are necessary for the 2012-2013 biennium, we request: 1) that the Legislature preserve higher education’s current proportional share of GR appropriations; and, 2) make reductions in equal proportions across all sectors of higher education. Whether additional budget reductions are necessary or not, the A&M System institutions and agencies will carry out their core missions and responsibilities faithfully and well within the resources provided. That is our commitment to our students, their parents, and the taxpayers of Texas.

High priority requests for Texas A&M International University:

Base funding for the University consists of formula funding and the \$15,608,318 in Institutional Enhancement funding. It is critical that this base funding continue to be provided to the University.

ADMINISTRATOR'S STATEMENT
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: **8/9/2010**
TIME: **9:28:31PM**
PAGE: **3 of 4**

Agency code: **761** Agency name: **Texas A&M International University**

Existing Special Items – It is critical and essential that the University retain the funding for the existing special items which include \$15,608,318 Institutional Enhancement, \$2,909,374 Ph.D. Program, \$539,424 Institute for International Trade, \$330,000 for the Small Business Development Center, \$2,000,000 Faculty Enhancement, and \$2,000,000 for outreach and enrollment.

Exceptional Items – The University is requesting the following exceptional items to provide the resources necessary to sustain growth and close the gaps:

Student Success Initiative - \$2,500,000 (biennial amount) – Will expand successful first-year experience program into the second and third years by developing a unique learning experience which will enhance retention and increase graduation rates.

Faculty Enhancement - \$2,800,000 (biennial amount) – Will provide the resources necessary for a developing institution, located in an area of perceived unrest and danger, to recruit and retain faculty adequate to the State's expectations for quality education.

Tuition Revenue Bond Authority – We are requesting TRB authority in the 82st Legislative Session for an Academic classroom building and library renovation in the amount of \$50,000,000.

The Coordinating Board formula reveals that TAMIU in the fall of 2009 had a space deficit of 82,821 square feet. We are crowded today. TRB funding, if appropriated, will provide new facilities which we can occupy by 2014. At that point, growing at approximately 10% each fall, today's campus will simply not hold the student population.

When the University moved to the new campus in 1995, enrollment stood at just over 2,000. Today, with enrollment approaching 7,000 students, our library facilities are no longer adequate. In order to increase library space, we must relocate diverse services and functions originally housed in the library building: first, support services and administrative offices, which occupy much of the basement, second, and third floors; second, the College of Education, which occupies much of the fourth floor.

Our growth also requires an expansion of classroom space, especially larger lecture halls. This TRB would fund a new building for the academic program and the College of Education, together with a small facility to house shipping, receiving, purchasing, and police. The relocation of these offices would then allow us to renovate and recapture for library use the vacated spaces.

ARRA Funding Replacement:

In FY 2010, the University received \$658,885 in GR formula replacement funds and \$595,295 in incentive funding. In FY 2011, ARRA-funded incentive funding totaled \$423,845. The University used these ARRA funds to cover the cost of salaries for faculty in nursing and engineering. We request replacement of these ARRA funds with GR funds to ensure continuation of these faculty positions in critical areas of need (healthcare and STEM).

Effects of 10% Reduction:

The 10% reduction for the University amounts to \$2,160,392, and a reduction of this magnitude would require an immediate hiring freeze for virtually all vacant positions and the replacement of full-time faculty lines with lower cost adjuncts. However, the scarcity of qualified adjuncts in the Laredo region, makes it impossible to substitute adjuncts for full-time faculty without compromising the academic programs.

ADMINISTRATOR'S STATEMENT
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: **8/9/2010**
TIME: **9:28:31PM**
PAGE: **4 of 4**

Agency code: **761** Agency name: **Texas A&M International University**

A 10% reduction in formula funding would almost certainly require the elimination of numerous faculty and staff positions and the elimination of academic program offerings. The University would have to restructure and downsize significantly, resulting in a substantial reduction in enrollment.

Criminal Background Checks:

The University has established and implemented a University rule which outlines the process for conducting criminal background checks on all new hires in accordance with Texas A&M University System regulations.

The South Texas Educational Horizon:

The creation of Texas A&M International University has brought new life to the citizens of South Texas. Today it is possible to achieve the great American dream, even if one is born to parents who never finished high school or attended college. Geographic isolation no longer undermines hopes for a better life. The young men and women of this region, overwhelmingly Hispanic, can today build better lives for themselves and their families. Adequate funding to sustain existing and new initiatives will ensure fulfillment of the University's mission, support student success, and close the gaps.

AGENCY MISSION

Texas A&M International University, a member of The Texas A&M University System, is committed to the preparation of students for leadership roles in their chosen profession and in an increasingly complex, culturally-diverse state, national and global society. The University provides students with a learning environment anchored by the highest quality programs built on a solid academic foundation in the liberal arts and natural sciences. To fulfill its mission, the University offers baccalaureate and masters programs in the arts; humanities; business; education; physical, biological and social sciences; and health professions with authority for select doctoral programs. Programs focus on developing undergraduate and graduate offerings and progressive agenda for global study and understanding across all disciplines.

Through instruction, faculty and student research, and public service, Texas A&M International University is a strategic point of delivery for well-defined programs and services that improved the quality of life for citizens of the border region, the State of Texas, and national and international communities.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The 74th Texas Legislature authorized an expansion of the University to 4-year status in fall, 1995. The South Texas Border Initiative supported the hiring of faculty and staff to handle the rapid growth in enrollment and the expansion of academic programs. Institutional Enhancement currently funds 24% of the University's total appropriation and 18% of E&G salaries, and it represents a significant portion of base funding. Without this base funding source, access to programs would have to be reduced including those programs such as nursing, engineering and teacher preparation that the State has deemed a high priority.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The University prepares students for success through an aggressive outreach to local and regional schools, establishing one-on-one relationships to guide high school students through the financial aid process. Upon entering the University, a comprehensive program of advisement and academic support ensures retention and timely graduation. This funding enables the University to provide non-traditional students with the environment and tools necessary for success and makes Closing the Gaps possible. The resources provided by this funding enable the State's underserved population to become productive participants in the Texas economy.

1	General Revenue Fund	4,359,228	4,359,228
	TOTAL, METHOD OF FINANCING	\$4,359,228	\$4,359,228

DESCRIPTION / JUSTIFICATION:

Construction of an academic classroom building and support services building to expand library

- Provides for larger lecture halls to handle the rapid growth—56.8% projected increase for fall 2010 over fall 2005 (the last year TRB’s were approved).
- Accommodates larger classes in a university that currently has only six classrooms that seat 100 or more.
- Promotes better student/faculty interaction by interspersing faculty offices currently housed in the library among classrooms.
- Creates a support services building to move select functions like police, purchasing and receiving out of the library.
- Renovates existing non-library space for other offices currently housed in the library.
- Expands the library by repurposing all vacated spaces (described above) for library use and by converting four outdoor balconies into indoor study rooms.
- Adds 17,000 gross square feet and approximately 11,000 square feet of net assignable space to the library and 115,000 gross square feet and approximately 75,000 square feet of net assignable space to the classroom inventory. The Higher Education Coordinating Board projected an adjusted deficit in excess of 82,000 square feet in fall 2009.
- Provides much needed space to accommodate the growth of the University. In the past five years the University has grown by more than 50% with only minimal additions to classroom and library space.
- Supports the University’s academic programs. The University offers 52 undergraduate and 33 graduate fields of study, including a doctoral program in International Business.

CODE	DESCRIPTION	Excp 2012	Excp 2013
-------------	--------------------	------------------	------------------

- This construction/expansion has been incorporated in the University master plan and is included in the plan filed with the Coordinating Board.
- This project addresses the statewide Closing the Gaps goals because it provides instructional space and instructional support space to accommodate new students. The growth of the University is meeting the needs of Hispanics from the border region by providing accessibility to higher education.
- The addition of instructional space will allow for the expansion of course offerings which will help to decrease the time to degree and increase graduation rates.
- Legislation enacted in 2005 requires universities, working with the school districts, to implement programs designed to improve the pre-K through 16 experience. The library at Texas A&M International is a regional center for students of all ages, faculty from all schools and colleges, and citizens of this borderland region. The library has implemented a vigorous program to teach young students how to use its resources properly, including online databases for reading, writing, and research.

Legislative Interest:

- Economic expansion requires an educated populace.
- Explosive population growth in the Laredo region will require expanded educational opportunities.
- The rising generation, made productive by higher education, will be the economic engine for this region and the State.
- These additions will contribute to the “Closing the Gaps” initiative statewide by providing additional resources that will help decrease the time to degree and improve graduation rates.

FULL-TIME EQUIVALENT POSITIONS (FTE):		21.00	21.00

DESCRIPTION / JUSTIFICATION:

This student success initiative permits Texas A&M International University to expand its successful first-year experience program into the second and third years by developing a unique learning experience which will enhance retention and increase graduation rates.

- Expands individual, intrusive, academic and career advisement involving faculty, professional advisors, and career counselors
- Affords extended and enhanced tutoring and supplemental instruction for sophomore courses
- Funds summer bridge programs for transfer students
- Improves the percentage of students in good academic standing through strong academic support programs and intrusive summer academies
- Provides enhanced counseling for veterans
- Supplemented by the U.S. Department of Education's TRiO Student Support Services grant and the National Science Foundation's STEM-Recruitment, Retention and Graduation grant

EXTERNAL/INTERNAL FACTORS:

Benefit to the State /Region and Results:

- Closing the Gaps goals in participation and success are facilitated with the funding this item provides.
- Success will be measured by an increase in: the second to third year retention rate of at least 3%, and six-year graduation rate of at least 5%

Legislative Interest:

- Retention and graduation are integral to meeting the State's Closing the Gaps goals.
- The resources provided by this funding enable the State's underserved population to become productive participants in the Texas economy.
- TAMU students are largely bilingual, and international businesses across the State are seeking college graduates with these skills.

FULL-TIME EQUIVALENT POSITIONS (FTE):

	17.00	17.00
--	-------	-------

DESCRIPTION / JUSTIFICATION:

This item provides the resources necessary for a developing institution, located in an area of perceived unrest and danger, to recruit and retain faculty who are essential to student success.

- Provides competitive salaries for faculty, especially in high demand areas of engineering, physical sciences, mathematics, teacher preparation and nursing that the State has deemed critical
- Enables recruitment and retention of faculty focused on sponsored research who can provide undergraduate and graduate students with opportunities to engage in faculty-mentored research.
- Affords opportunities for faculty development in both teaching and research
- Assists with recruitment of faculty to the South Texas border
- Supplemented with funds provided by local hospitals for nursing faculty
- Seeking funding from federal government to help build research infrastructure in areas of high demand such as engineering, nursing, and life and physical sciences

EXTERNAL/INTERNAL FACTORS:

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE

Agency name:

Texas A&M International University

CODE	DESCRIPTION	Excp 2012	Excp 2013
-------------	--------------------	------------------	------------------

Benefit to the State /Region and Results :

- Graduates in high demand areas of engineering, nursing, life and physical sciences, mathematics, and teacher preparation will increase, helping to Close the Gaps.
- Nursing and secondary teacher shortages in the South Texas region will be reduced.
- The ability to recruit and retain faculty enables the University to meet the State's expectations to provide a quality education to students and increase sponsored research focused on issues vital to the region and the State of Texas.
- Salaries for TAMIU faculty rank below the state average and median. THECB compiles faculty salary data annually allowing us to chart our progress in remaining competitive.
- Retention of faculty and their success at securing outside funding will be measured.

Legislative Interest:

The State has identified nursing, engineering and teacher preparation as high priority programs, and this funding would assist with recruiting and retaining faculty and, therefore, graduating students in these high demand fields. In addition, providing research opportunities for undergraduate students has been shown to enhance retention and decreases the time to degree.

B. Assessment of Fiscal Year 2008 - 2009 Efforts to Meet HUB Procurement Goals

Attainment:

The University attained or exceeded four of six HUB procurement category goals and had no expenditures for the other two categories in FY 2009.

Applicability:

Large construction projects are managed by the Facilities, Planning and Construction Department of the Texas A&M University System.

Factors Affecting Attainment:

All procurement and services over \$5,000 are bid. HUBs are given the opportunity to participate in all bids regardless of the dollar amount. Bidder list is supplemented by additional vendors over the State requirement. Agencies participation in System and Cooperative Purchasing Contracts have affected some attainments. Efforts continue to assist vendors in certification.

"Good-Faith" Efforts:

- Provide sufficient time for preparation and submission of bids/proposals to better facilitate participation by HUBs.
- Prompt HUB soliciting on all dollar value purchases regardless of type of funds used.
- Actively participate in Economic Opportunity Forums, Systems, Statewide HUB meetings, and the South Texas Chapter of Texas University HUB Coordinator Alliance.
- Hold pre-bid conferences on specific projects to explain University's procedures and bid requirements to encourage subcontracting with HUBs.
- Prompt HUB awareness through training for University employees.
- Assist HUBs with specialized forums.
- Host and co-host vendor forums.
- Performance/Payment Bonds are discouraged unless there is a need or a statutory requirement.

6.G HOMELAND SECURITY FUNDING SCHEDULE - PART B NATURAL OR MAN-MADE DISASTERS

DATE: 8/9/2010

FULL-TIME-EQUIVALENT POSITIONS

USE OF HOMELAND SECURITY FUNDS

University Police Department:

Texas A&M International University (TAMIU) is committed to providing our first responders and all other departments that may be called upon to respond and/or participate in a weapons of mass destruction incident or any other natural or man-made incident with the equipment and training necessary to safely and effectively manage the incident. The equipment and capital outlay purchases provided to the University police department are in line with local, state and national goals of providing a common approach to state and national response that will enable responders at all levels to work together more effectively to manage emergency incidents. TAMIU follows national guidelines and standards for command and management, preparedness, and communications in emergency situations. We strive to be prepared and train our personnel to prevent, protect, respond to, and recover from incidents of various types and complexities.

Office of Information Technology:

In an effort to provide a more secure and safe learning environment for students of the border region, we have invested in systems to notify our campus community. This notification system will alert users' cellular phones by SMS (simple messaging service) of natural disasters or terroristic threats. We are exploring other complimentary systems to use with this service to provide a more thorough disaster notification and preparedness strategy for our campus.

09/01/2011	08/31/2013			
Gross Square Feet:	Net Assignable Square Feet in Project			
139,000	86,000			

Project Description

- Provides for larger lecture halls to handle the rapid growth—56.8% projected increase for fall 2010 over fall 2005 (the last year TRB's were approved).
- Accommodates larger classes; currently only six classrooms seat over 100 students.
- Promotes better student/faculty interaction by interspersing faculty offices currently housed in the library among classrooms.
- Creates a support services building to move select support functions out of the library.
- Renovates existing non-library space for other offices currently housed in the library. Expands the library by repurposing vacated spaces (described above) for library use.
- Adds 17,000 gross square feet (approximately 11,000 square feet net assignable) to the library and 115,000 gross square feet (approximately 75,000 square feet net assignable) to the classroom inventory.
- In the past five years the University has grown by more than 50% with minimal additions to instructional space.

SCHEDULE 11: SPECIAL ITEM INFORMATION
82ND REGULAR SESSION
Automated Budget and Evaluation System of Texas (ABEST)

Date: 8/9/2010
Time: 5:14:43PM
Page: 1 of 8

Agency Code: 761 Agency: Texas A&M International University

Special Item: 1 Institutional Enhancement

(1) Year Special Item: 2000

(2) Mission of Special Item:

The 74th Texas Legislature authorized an expansion of the University to 4-year status in the Fall of 1995. The South Texas Border Initiative supported the hiring of faculty and staff to handle the rapid growth in enrollment and the expansion of academic programs. This continues today with 111% growth since 2000. Institutional Enhancement currently funds 24% of the University's total appropriation and 18% of E&G salaries; it represents a significant portion of base funding.

(3) (a) Major Accomplishments to Date:

Funding 115 FTE faculty

(3) (b) Major Accomplishments Expected During the Next 2 Years:

As mentioned above, Institutional Enhancement currently funds 24% of the University's total appropriation and 18% of E&G salaries, and represents a significant portion of base funding. Over the next two years, the special item funding will be used to retain and recruit faculty members and to provide opportunities for them to engage in sponsored research, which will increase revenues to the State of Texas. In addition, the funding of these faculty positions will help decrease our reliance on adjunct faculty, which is critical for maintaining and improving our persistence rates for first- and second-year students.

(4) Funding Source Prior to Receiving Special Item Funding:

The Institutional Enhancement special item was the result of the consolidation of certain types of special items by the 74th Leg., plus the addition of an initial \$1M per year for academic enhancement purposes.

(5) Non-general Revenue Sources of Funding:

None.

(6) Consequences of Not Funding:

Institutional enhancement is part of base funding for this institution. It is critical that this base funding continue to ensure both the quality and survival of programs. Without this base funding source, access to programs would have to be reduced including those programs such as nursing, engineering and teacher preparation that the State has deemed a high priority.

SCHEDULE 11: SPECIAL ITEM INFORMATION
82ND REGULAR SESSION
Automated Budget and Evaluation System of Texas (ABEST)

Date: **8/9/2010**
Time: **5:14:48PM**
Page: **2 of 8**

Agency Code: **761** Agency: **Texas A&M International University**

Special Item: 2 **Ph.D. Program in Business**

(1) Year Special Item: 1999

(2) Mission of Special Item:

The A.R. Sanchez Jr. School of Business PhD Program in International Business was created in the interest of making the University the Center for analysis of global, international, Latin American, and border issues. The Program prepares students to fulfill this mission not only as professors, but as policymakers and as integral parts of the global business and financial communities. The Program's focus on international business is consistent with the dynamics of the economic culture of the Texas border region, moving toward global business relationships.

(3) (a) Major Accomplishments to Date:

The PhD Program began in 2004 graduating its first student graduate in 2007, two more in 2009, and five in 2010. These eight students are now full-time faculty members at universities in Canada, Mexico and the United States. Three are teaching in universities in Texas. Several faculty members who are teaching in the TAMIU PhD program have had their work cited in hundreds of articles written by other researchers in their fields.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

An important goal for the PhD program is to maintain graduation rates greater than what the THECB policy sets for maintenance of the program. A second and related goal is to increase the number of qualified applicants, and to facilitate graduation and job placement.

(4) Funding Source Prior to Receiving Special Item Funding:

Special item did not exist prior to funding.

(5) Non-general Revenue Sources of Funding:

None

(6) Consequences of Not Funding:

Without this item, the PhD program would not exist. Research would suffer since PhD candidates often assist faculty as teaching or research assistants.

SCHEDULE 11: SPECIAL ITEM INFORMATION
82ND REGULAR SESSION
Automated Budget and Evaluation System of Texas (ABEST)

Date: **8/9/2010**
Time: **5:14:48PM**
Page: **3 of 8**

Agency Code: **761** Agency: **Texas A&M International University**

Special Item: 3 Faculty Enhancement

(1) Year Special Item: 2008

(2) Mission of Special Item:

To provide the resources necessary for this rapidly growing institution to recruit and retain faculty to meet the State's expectations for quality education. Our present rate of growth requires a steady increase in faculty.

(3) (a) Major Accomplishments to Date:

To date, 13.5 faculty positions have been funded as well as Operation and Maintenance.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

As mentioned above, this item represents base funding equivalent to 4% of our E&G and 13.5 FTEs. Over the next two years, the special item funding will be used to recruit and retain faculty members and to provide opportunities for them to engage in sponsored research which will increase revenues to the State. In addition, the funding of these faculty positions will help decrease our reliance on adjunct faculty which is critical for maintaining and improving our persistence rates for first- and second-year students.

(4) Funding Source Prior to Receiving Special Item Funding:

There was no additional funding source as these positions did not exist.

(5) Non-general Revenue Sources of Funding:

None.

(6) Consequences of Not Funding:

This item represents base funding equivalent to 4% of E&G salaries and 13.5 faculty. Not funding it would require us to eliminate 13.5 faculty, equivalent to 1/3 of all faculty in the College of Business or all faculty in the College of Nursing.

SCHEDULE 11: SPECIAL ITEM INFORMATION
82ND REGULAR SESSION
Automated Budget and Evaluation System of Texas (ABEST)

Date: **8/9/2010**
Time: **5:14:48PM**
Page: **4 of 8**

Agency Code: **761** Agency: **Texas A&M International University**

Special Item: 4 **Institute for International Trade**

(1) Year Special Item: 1979

(2) Mission of Special Item:

The Institute supports the international mission of the University by collecting and publishing economic indicators for the Texas-Mexico border region, promoting research on international trade and related issues, and encouraging scholarly productivity of its faculty and students. The Institute was originally a part of the Graduate School of International Trade. When the College of Business Administration was established, the Institute served as an internal think tank for the University and the border region. The Institute for International Trade published the NAFTA Digest for several years prior to the establishment of NAFTA, and for several subsequent years. It also now publishes the Border Business Indicators using the data base established at the University. The Institute also published the Journal of International Trade, a highly regarded scholarly quarterly now in its 24th year of publication. The same Special Item funding has also made possible the establishment of a database containing monthly border trade, including vehicular, passenger, truck, rail and pedestrian traffic on all major Texas-Mexico border points of entry. This information is available to business, government agencies, other institutions and the general public. Numerous studies and research monographs and publications dealing with economic development and competitiveness of the border region have been made possible through these funds.

(3) (a) Major Accomplishments to Date:

Implementation of NAFTA has created a new economic environment in the border region with new opportunities and risks. The Institute has become a major source of information on international trade with emphasis on Western Hemispheric Trade issues, especially those relating to economic interaction between Texas and Mexico. Several partnerships have been established, including one with Tec de Monterrey, Universidad Regiomontana and Universidad Autonoma de Nuevo Leon for exchange of students and faculty and to promote scholarly research beneficial to the border region. Scholars from around the world, particularly NAFTA countries and Central and South American countries, attend the annual conference where they present studies that help raise the level of education, the knowledge base, and thus the standard of living of the border region and enable its population to reach for the standard the rest of Texas and the United States to enjoy. Support for undergraduate and graduate research has been made possible through this funding, and the University as a whole has been able to achieve a higher quality manifested in its accreditation by SACS and its School of Business accreditation by AACSB--International.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The Institute will continue to publish the highly regarded Journal of International Trade and will create a database for manuscript submissions and acceptance information for the Journal. The Institute is also working on a partnership with Taylor & Francis/Routledge, the Journal's current publishers, to get the Journal into the Social Science Citation Index which provides researchers and students with access to bibliographic and citation information needed to find research data, journals and researchers.

The Institute will also expand cross-border relationships with Mexican and Central American businesses and continue to provide research opportunities in international business for faculty.

(4) Funding Source Prior to Receiving Special Item Funding:

These programs did not exist prior to funding and were established thanks to the Special Item.

(5) Non-general Revenue Sources of Funding:

None.

SCHEDULE 11: SPECIAL ITEM INFORMATION
82ND REGULAR SESSION
Automated Budget and Evaluation System of Texas (ABEST)

Date: **8/9/2010**
Time: **5:14:48PM**
Page: **5 of 8**

Agency Code: **761** Agency: **Texas A&M International University**

(6) Consequences of Not Funding:

The continuation of funding for the Institute is essential to the State's goal of bringing the border region to a level on par with the rest of the State. Failure to fund the Institute could seriously jeopardize the survival of many businesses in the Texas-Mexico border region. But for such funding, programs to fortify higher education of the border region could not have materialized, and continued funding will support vital research by faculty and students to enhance the border region's competitive position.

SCHEDULE 11: SPECIAL ITEM INFORMATION
82ND REGULAR SESSION
Automated Budget and Evaluation System of Texas (ABEST)

Date: **8/9/2010**
Time: **5:14:48PM**
Page: **6 of 8**

Agency Code: **761** Agency: **Texas A&M International University**

Special Item: 5 Small Business Development

(1) Year Special Item: 2008

(2) Mission of Special Item:

To promote the growth, expansion, innovation, increased productivity, and improved management for small businesses through activities of individual business counseling and technical assistance, group training seminars and workshops, advocacy, and research information.

(3) (a) Major Accomplishments to Date:

The SBDC is a member of the South-West Texas Border SBDC Region, and we collectively serve over 25,500 small business clients annually through a network of 10 SBDC field centers established at UTSA, Sul Ross State University (Alpine), SRSU Rio Grande (Eagle Pass), Texas A&M International University (Laredo), UT-Pam American, Del Mar College (Corpus Christi), UH-Victoria, Texas State University (Austin), Angelo State University (San Angelo) and El Paso Community College. Specialty SBDCs promote international trade, Colonia development, defense transition, human, corporate and public contact bid matching, and technology commercialization.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The TAMIU SBDC will continue to provide the high standard of economic development by increasing business starts, business expansions, job creation and retention, and increasing capital access to small business owners. The SBDC will continue to provide entrepreneurs and existing small business owners with confidential one-on-one counseling and the small business management training necessary for the improvement of operating their business or starting a business so that it can be successfully sustained in the long term.

(4) Funding Source Prior to Receiving Special Item Funding:

None.

(5) Non-general Revenue Sources of Funding:

Primarily federal grants (U.S. Small Business Administration) and some user fees for training activities.

(6) Consequences of Not Funding:

The SBDC program is a major contributor toward fulfilling the University's public service mission with over 25,000 businesses served annually. It contributes to the University's research mission with applied economics projects and technology commercialization support and to the teaching mission through student service learning activities. International MBA students conduct market research to help companies export Texas goods and services. Accounting students help new businesses set-up QuickBooks to better manage revenues, expenses, payroll, benefits and taxes. Without funding, client services like these would be reduced or eliminated as would student learning activities. There would also be a loss of federal funds available to support business development extension services in the 79-county South-West Texas Border Region which would affect all partner-institutions of the Regional SBDC network.

SCHEDULE 11: SPECIAL ITEM INFORMATION
82ND REGULAR SESSION
Automated Budget and Evaluation System of Texas (ABEST)

Date: **8/9/2010**
Time: **5:14:48PM**
Page: **7 of 8**

Agency Code: **761** Agency: **Texas A&M International University**

Special Item: 6 Outreach and Enrollment

(1) Year Special Item: 2010

(2) Mission of Special Item:

The University prepares students for success through aggressive outreach to local and regional schools, establishing one-on-one relationships to guide high school students through the admissions and financial aid process. Upon entering the University, a comprehensive program of orientation, advisement, and academic support ensures retention and timely graduation. This funding enables the University to provide non-traditional students in an underserved region with the environment and tools necessary for success and makes Closing the Gaps possible. The resources provided by this funding enable the State's underserved population to become productive participants in the Texas economy.

(3) (a) Major Accomplishments to Date:

Increased freshmen applications by 20% (fall 2009 to fall 2010, as of February 2010).

Increased first-time freshmen's GPA from 2.35 to 2.5 (fall 2008 to fall 2009).

Reduced probation rates for first-time freshmen by 7% (fall 2008 to fall 2009)

Hired two additional outreach and retention specialists

Created an Advising and Mentoring Center for first and second year students staffed by professionals and peer mentors

Hired a retention specialist for freshmen and sophomore students

Expanded tutoring and supplemental instruction services.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

TAMIU will increase outreach to high school students within a 120 mile radius of the University and therefore increase the overall student enrollment and semester credit hour production. Freshman orientation will be expanded to help student acclimate to university life, increasing retention rates.

(4) Funding Source Prior to Receiving Special Item Funding:

There was no funding source prior to receiving this.

(5) Non-general Revenue Sources of Funding:

Orientation fee for first-time freshmen and advisement fee for all students.

(6) Consequences of Not Funding:

SCHEDULE 11: SPECIAL ITEM INFORMATION
82ND REGULAR SESSION
Automated Budget and Evaluation System of Texas (ABEST)

Date: **8/9/2010**
Time: **5:14:48PM**
Page: **8 of 8**

Agency Code: **761** Agency: **Texas A&M International University**

Without funding, this program as currently implemented would be eliminated: outreach, orientation, tutoring, supplemental instruction, advising, and peer mentoring. Additionally, it would be impossible to provide non-traditional students with the environment and tools necessary for success at the University. It is hard to imagine Closing the Gaps without this or a similar program for student success.
