PRE-EXISTING RELATIONSHIP FOUR-PART TEST

1. Did the relationship between the athlete (or athlete's parents) and the individual providing the benefit(s) develop as a result of the athlete's participation in athletics or notoriety related thereto?

2. Did the relationship between the athlete (or the athlete's parents) and the individual providing the benefit(s) predate the athlete's status as a prospective student-athlete?

3. Did the relationship between the athlete (or the athlete's parents) and the individual providing the benefit(s) predate the athlete's status achieved as a result of his or her athletic ability and reputation?

4. Was the pattern of benefits provided by the individual to the athlete (or athlete's parents) prior to the athlete attaining notoriety as a skilled athlete similar in nature to those provided after attaining such stature?

If you answered NO to questions 1, and YES to questions 2, 3, 4 then there is an established relationship with the athlete.

However, if you answer differently for any of the four questions, then by NCAA rules, there is NO pre-existing relationship and thus it is impermissible for you to provide any preferential treatment, benefits, or services to that athlete.

RULES OF EMPLOYMENT

Boosters are allowed to employ or assist in securing the employment of current student-athletes. However, the student-athletes must complete paperwork with the compliance office prior to beginning work because there are financial restrictions to consider, and money earned must be for actual work performed and at the same rate that any non-student-athlete would earn.

It is required that you contact the compliance office prior to employing a prospective student-athlete.
