

**TAMIU**

Academic Goals as an International  
University

# Mission Statement

- “prepares students for leadership roles in an increasingly complex, culturally diverse state, national, and global society.”

# International Agenda

- We have [329 courses](#) with an international perspective/cultural diversity component;
- Through its Bilingual Center, the University offers Certificates in [Latin American Studies](#), [International Studies](#) and [International Leadership](#).

# School Of Engineering

- TAMIU vision is to have a strong engineering program to be offered to South Texas, as well as to the international community, starting with Mexico.

Current status and next steps:

- We offer a BS on Systems Engineering since 2007. But plans are for opening a MS Program in the next couple of years.
- We will open this Fall a BS Engineering Program with the possibility of being a Petroleum Engineering or some other engineering, not decided yet.

# International Energy Center (IEC)

- Vision: Create an international research center at TAMIU to support oil & gas industry as well as wind and solar energies.
