

TIPS FOR BLOOMING RESEARCH PROJECTS

Stephanie M.
Mancha

Selecting a Project

- Pursue a project that resonates
- Interest may ensure commitment and dedication
- Consider feasibility

Finding a Mentor

- Consider expertise and compatibility with your project
- Think of the professor's feedback style

Have a Game Plan!

- Create a timeline
- Define your project
- Ensure alignment with research design
- Identify potential risks and challenges

Conducting Research

- Thoroughly review literature
- Document and organize
- Prepare to be adaptable

Going Forward

- Enjoy the process, even though it may be difficult
- Remember the importance of your research
- Know all the resources available to you
