

# Allow iPad with Respondus Lockdown Browser

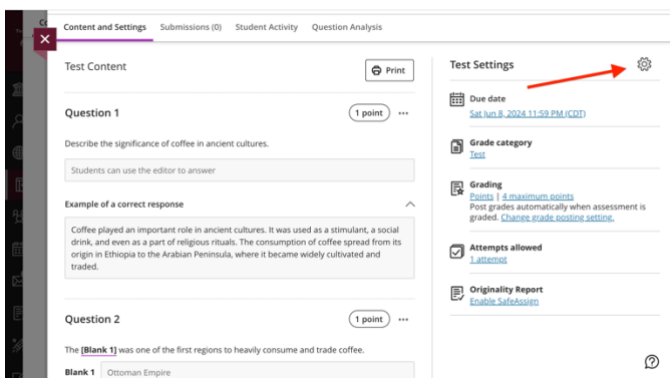

1. In your content page, go to your course.

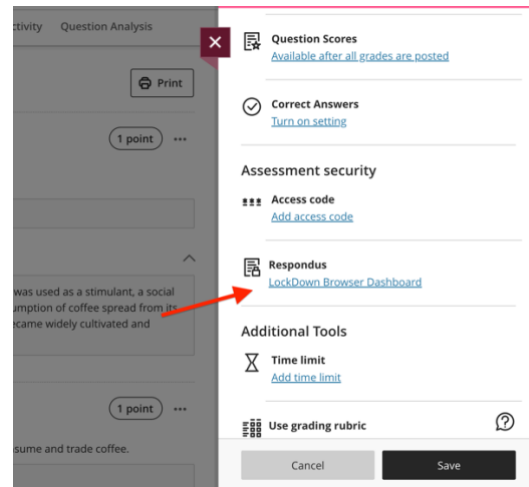

2. Go to one of your course modules and select the exam or quiz you want to add RLDB to.

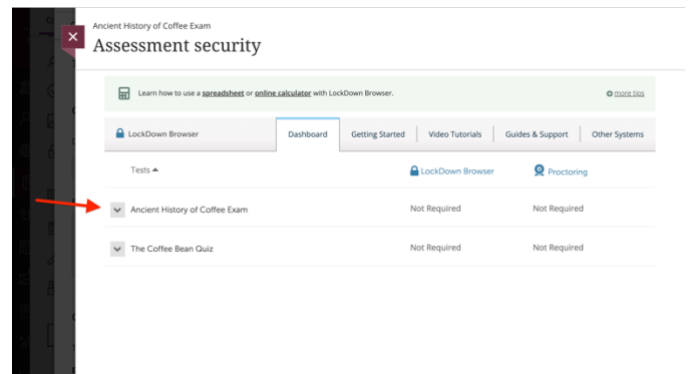

3. Press the gear icon to access more settings.

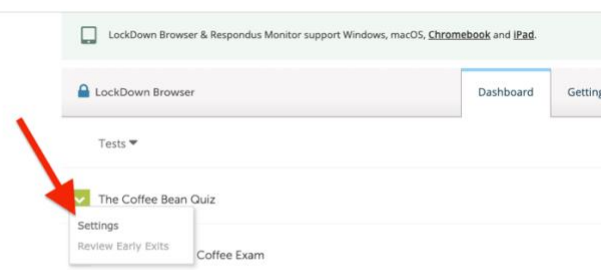

4. Scroll down to the Respondus section.

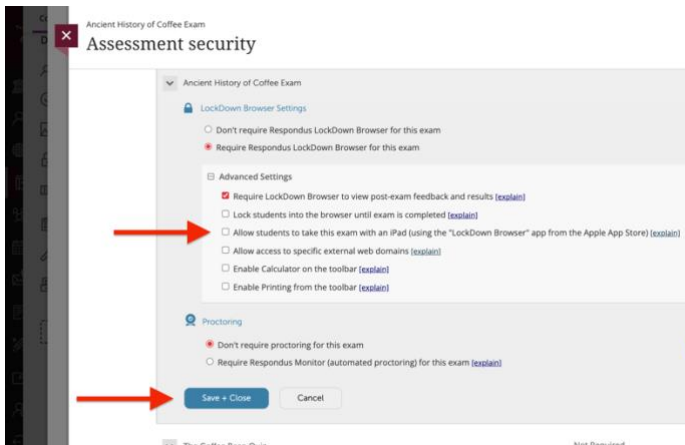

5. Click the drop-down arrow for the exam you want.

6. To turn on RLDB, select "Require a Respondus Lockdown Browser for this exam." Adjust your advanced settings to your preference.

7. Expand the **Advanced Settings** option and select *Allow student to take this exam with an iPad (using the “LockDown Browser” app from the Apple App store)*. Then click the **Save + Close** button.
