Belva Gonzalez on behalf of Marivic Torregosa (CNHS):

Presented on the reading intervention program (Weaver Instructional System) used in nursing school.

Sean Maddan (Associate Provost):

Spring schedules due; faculty should be listed as much as possible; avoid TBA.

Credentialing will start in October, so it is important to have faculty listed on courses as much as possible.

We need to make sure *classes are spread out* to alleviate having too many classes during popular times.

Study Abroad –minimum instructional hours must be 45. Dr. Maddan is reviewing Study Abroad applications.

Curriculum is in full swing. UCC meets September 27. November 8 is the last day to start any curriculum changes for AY 25-26.

SYL-Dr. Maddan is working on a few tweaks before spring.

Dr. Campbell brought up an issue concerning *course loads*. Right now, some faculty are teaching overloads. Rather than being paid overload, they will get course reduction in the spring. Dr. Maddan will discuss with individual deans/chairs.

There was a request to update the *credentialing forms*.
